Subject: Request to Schedule Surety Payments for Rocanville Corporation,
Rocanville Corporation, Tejon Quarries, M/027/087, Millard County,
Utah

Dear Mr. Hamilton:

The Division has reviewed your request for a Surety payment schedule received April 14, 2005. Before we can consider your proposal, additional information identified below is required.

- Provide a (identify scale/type – be specific) map of the entire permit area and current/existing disturbance showing the total acreage for both the disturbed area and permit area.
- On the map, identify future disturbance (acreage) you anticipate for 2005, and each successive year.

When we completed our review and issued tentative approval of your Large Mine Operations Plan, the surety was calculated for the life of the mine for the entire site. We may be able to incorporate a cumulative bonding method that will treat each increment of mining as its own mining and reclamation unit. Using this bonding method, current and successive mining and operational stages need to be identified.

When we receive the requested map with yearly anticipated disturbance (acres), we will then evaluate your proposal. We look forward to having the two clean copies of your complete plan by the end of the public comment period for this site, which ends May 1, 2005. If possible, please provide your response to this letter before that time.
